WORK EXPERIENCE

Web Developer

May 2023 - Present

SightSage Foods and Nutrition Inc.

Richmond, BC

- Designed and developed an advanced web portal for the marketing team using HTML, CSS, React, and Node.js, resulting in a 40% increase in survey submission efficiency.
- Implemented and fine-tuned machine learning algorithms to optimize recommendation engines. Achieved 15% increase in customer engagement.
- Building an iOS and Android application in React Native.

Skills: Python, Liquid, HTML, CSS, Tailwind, SCSS, Javascript, Node.js Typescript, React, Jest, Node.js, Linux, Selenium, Postman, Webpack, RESTful API

Web Developer Intern

August 2021 - February 2022

Coast Spas Manufacturing

Langley, BC

- Developed an AI-driven product recommendation system in Python utilizing machine learning models like collaborative filtering using Python and integrating it into a web application.
- Completed the migration of OAuth system while ensuring zero-downtime using PHP and C#
- Automated, shipped a warranty portal web application. Enhanced the system by integrating RESTful APIs for seamless data management, utilizing modern JavaScript frameworks to optimize the user interface.
- Integrated E-Commerce websites with Microsoft Dynamics 365 CRM & Syspro ERP system for automated entering of sales orders and invoices. Developed and deployed a serverless function using Cloud Functions, Microsoft Graph API, TypeScript, and PHP send customers' invoice PDFs via email.

Machine Learning Engineer (Contract)

June 2020 - July 2021

Worldlink Exports

Remote

- Implementation of a scalable, cloud-based data processing and analytics platform, integrating machine learning algorithms for automated data preprocessing pipelines, reducing preprocessing time by over 30%.
- Created custom Power BI reports for clients, utilizing DAX queries on multiple tables. Reduced manual intervention by 25%, resulting in time saving and enhanced productivity.

Skills: Power BI: Power Query, MDX, DAX, MySQL, Data Warehousing, Git, Node.js

PROJECTS

Cognitive Games

- Collaborated with a team. Games aimed at assisting dementia patients. Utilized MicroPython on an ESP-32 microcontroller to integrate hardware and software components seamlessly. Real-time data recording of players' performance was sent to a remote server using PHP and MySQL to record, visualize, and analyze performance data retrieved from database on the web application.

EDUCATION

Trinity Western University *British Columbia*

GPA: 3.8

BSc Computer Science

2020-2024

SKILLS

Front-End	HTML, CSS, Javascript, Typescript, React, Next.js, Jest, jQuery, AJAX, Webpack, Babel, Shopify, Joomla, Wordpress
Back-End	Node.js, Python, Django, Flask, PHP, C#, RESTful API, Selenium, JUnit, Postman, MySQL, PostgreSQL, MongoDB, Redis, MS SQL Server, SEO
Model Deployment	Linux, Docker, Jenkins, Kubernetes, Microsoft Azure, Git
